

FEDERATION OF PILING SPECIALISTS

Why Use an FPS Member?

Piling is a specialist and complex construction process requiring significant expertise to deliver successful engineered solutions to today's building demand. For peace of mind, reduced risk and value-for-money, it is therefore, important to select the most appropriate specialist piling contractor.

Choosing a Federation of Piling Specialists' (FPS) member is your guarantee that piling work will be undertaken professionally and to the highest level.

FPS Members Represent the Best Value

FPS Members are committed to continually improving standards of safety, technical execution and quality. It is this commitment that reduces and manages the inherent risks in projects and minimises unforeseen issues that are expensive to resolve.

- Less risk and better value for money
- FPS shares safety data & insights to collectively minimise the risk of LTAs
- Collaborates on technical standards to ensure high-quality capability

FPS Audit Gives Peace-of-Mind

All FPS Members are independently audited every three years. The pass mark is revised upwards each audit round to ensure that standards are constantly improving across the five audited areas of:

- Quality Management
- Health & Safety
- Sustainability
- Technical Ability
- Training

Better Supply-Chain Relationships

The FPS Associate Membership scheme ensures that Members are able to collaborate with industry partners and suppliers to ensure high quality expectations are met throughout the supply-chain. This means working together to find solutions to common issues to eliminate project risks and find more cost-effective ways of working.
