Q2 Accident Summary

ref	Accident Severity / Category	Date of accident (dd/mm/y y)	Age	N° years exper ience	Shift start time (24 Hr)	Time of accide nt (24 Hr)	Place of Accident	Foundati on Site Activity	Function / Trade (at time of accident)	Activiy of IP	Body part injured	Type of Injury	Outline / Description	Immediate Cause	Pers onal Facto rs	Job Factors	Organis ational Factors	Remedial Action Taken
2019/239	1-7 day LTA	25/06/19	19 - 30	>3 years	07:30	16:00	Site	Rotary site	General Piling Operative	Bankin g a crane or rig	Eye	Other	At approximately 16:00 on Tuesday 25th June, The IP complained to his supervisor that his eye was irritating him and that he had something in his eye. The First aider helped him wash his eye out and looked to see whether there was anything there. The IP has stated that he was wearing his glasses at the time of the incident. They could see nothing in his eye and so they assumed that they had been successful at removing the object. The next morning, he woke with his eye sore and inflamed, so when he arrived at site his foreman instructed him to go and seek medical help. The IP arrived back to site in the afternoon with an eye patch on his eye, and was told to rest by the medical staff. On 27th June the IP called in sick as his eye was still sore and irritated but he arrived at site at 11:30 with his eye patch removed and has since returned to work	Not known	N/A	Maintenance of safe work environment (noise, layout, interfaces, atmosphere, etc)	N/A	No actions recorded
2019/240	Dangerous Occurrenc e	21/05/19	41 - 50	>3 years	07:30	13:00	Site	Rotary site	Ancillary Plant Operator	Other	eye	Eye injury	When tipping pile arisings the dumper truck was on th edge of the batter when it gave way, the dumper fell forward and down, finishing embedded vertically in the spoil . The driver was not injured and was wearing his seatbelt.	Moving/Fal ling Objects	Perce ption of risk (unaw are, under estim ate, mach o)	Supervision (numbers, communicati on, competence, control, etc)	Manage ment of Change (commun ication, evaluatio n, consultati on)	A review of how spoil heaps were managed was carried out from the perspective of Temporary works arrangements. Poor change management was one contributing factor as the risks introduced by the changing situation had not been recognised.
2019/241	+7 Day LTA (RIDDOR)	21/05/19	51 - 60	>3 years	07:30	14:15	Yard	Plant Yard or Worksho p	Delivery/R MC Driver	Manual Handlin g - handlin g constru ction materia ls	Shoulder	Sprai n / Strain	Moved helical by swing his left foot across his right foot and his right foot slipped on the gravel causing IP to land heavily on his right shoulder.	Slip/Trip	Error (lapse , slip, mista ke)	N/A	N/A	IP will be briefed and sent on a Health & Safety awareness course.

Q2 Environmental Summary

Incident Severity / Category	Date of incident (dd/mm/yy)	Time of accident (24 Hr)	Place of Incident	Foundation Site Activity	Type of incident	Cause of incident - (training/ procedures/ complaint etc)	Outline / Description	Remidial Action
Minor Incident	24/06/2019	12:30	Site	Rotary site	Spill	Machine breakdown (inc Hose bursts)	A team from Expanded Geotechnical were carrying out existing slab coring in area C corner of Winsland Mews adjacent to hospital, using BG30 Piling Rig. At around 12:30pm on 24/06/19 one of the hydraulic hoses burst unexpectedly. As a result of this some hydraulic oil was sprayed onto the façade hospital building, Winsland Mews pavement adjacent to the hospital entrance, Roof as well as to bikes and vans which were parked at the time of the incident. Luckily there were no members of the public walking by at that time.	Spill kits on rig utilised to control spill. Street Clean up arranged and affected vehicles cleaned.
Minor Incident	09/04/2019	08:44	Yard	Factory Premises	Spill	Other	While cleaning up jet washing bay with beam on fork truck, the fork truck began to drop all its hydraulic fluid on to floor next to drains	
Minor Incident	29/04/2019	10:15	Site	CFA/CSP site	Spill	Machine breakdown (inc Hose bursts)	Hydraulic hose on PM70 concrete pump burst, spilling oil on the ground.	
Minor Incident	14/05/2019	12:30	Site	Drilling/Minipile site	Spill	Machine breakdown (inc Hose bursts)	Oil spill (approx. 1I) after a stone from the platform struck the hydraulic hose off the box behind the tracks.	Spill kits on rig utilised to control spill
Minor Incident	22/05/2019	10:00	Site	Rotary site	Spill	Machine breakdown (inc Hose bursts)	While inserting casing, a hydraulic hose burst. Biodegradable oil was spilt which was contained by spill kits.	Spill kits on rig utilised to control spill
Minor Incident	23/05/2019	15:00	Site	Rotary site	Discharge	Incorrect handling	Operative opened concrete skip door and discharged concrete into dock.	Incident reported, operatives rebriefed and process reviewed and amended.
Minor Incident	20/05/2019	11:00	Workshop	Plant Yard or Workshop	Spill	Machine breakdown (inc Hose bursts)	BG40 fan motor leaked approx. 100l of oil on workshop floor.	Oil was cleaned with spill kit and removed for disposal.
Minor Incident	09/08/2019	14:00	Site	Rotary site	Spill	Machine breakdown (inc Hose bursts)	Pipe burst on P2 barge hydraulic hammer.	Burst was contained and cleaned with spill kit.
Minor Incident	21/08/2019	15:00	Site	Rotary site	Discharge	Poor planning	Small amount polymer was discharged into dock.	Process reviewed and rebriefed to site operatives.
Minor Incident	03/05/2019	09:30	Site	Rotary site	Spill	Machine breakdown (inc Hose bursts)	Whilst Boring a secant pile the BG28 burst a hydraulic hose causing hydraulic oil to spill on the area immediately surrounding the rig	Not RIDDOR reportable and no alert required
